

THE ASHLAND HISTORIAN

WEST SETTLEMENT CHURCH UPDATE

Have you driven by the Church lately???

As you may know the outside renovation of the West Settlement Church is almost complete. The roof is scheduled to be replaced this Spring. There has been a very generous offer for someone to donate the labor and the shingles. That will be the last order of business for the outside restoration. The Association will be seeking grant monies this year to start the ball rolling for the interior repair.

It is our hope that the inside restoration will be complete by 2010. Thank you

A Beauty

for your continued contributions and support for this very important project. The Ashland Historical Association is working very hard toward the completion of this restoration. This building is very important to many people in this area. With the continued support and contributions to this cause the Ashland Historical Association can continue this very important work.

Either drop us a line @ PO Box 129, Ashland, NY 12407 or call Diane @ 518-734-3636.

The President's Corner by Samerna Rion

First let me say it is my pleasure to follow in Alice's footsteps on a well paved path as the new president. Thanks to all of those who appointed me and I look forward to working with all of you.

The work on the West Settlement Church project will continue in 2008 with the completion of a new roof. We welcome your suggestions for future projects.

Keep a look out for our 2008 events: Our Annual History Day and Chinese Auction will be coming up before you know it. We are hoping to plan at least a couple of dances in the months ahead.

I thank you again for all the support that this organization receives.
